

ZH-FT Filament /fiberglass tape

The reinforced fiberglass yarn provides the filament tapes high tensile strength; the PET film backing provides excellent abrasion and moisture resistance. The proper packaging-grade adhesive is specially to provide good initial adhesion & long-term holding power. Fiberglass Filament Tapes are suitable for many applications including:

Transport securing; securing pallets
 Securing loose parts during delivery or storage of electric devices (washing machines, fridge, freezers, dishwashers)
 Protection of edges
 Reinforcing plastic elements
 Packaging heavy and bulky cardboard boxes
 Bundling heavy objects
 Bundling and palletising
 Heavy duty carton sealing
 Pipeline and cable wrapping

Type Series:

Mono-directional Filament Tapes
 Cross Filament Tape
 Double sided Filament Tapes

Popular Model Specification :

Model	Base Material	Thickness (μm)	Initial Adhesion (ball#)	Holding Power (hours)	Tensile Strength (25MM/N)	Elongation (%)	Type
FT-714	PET + Fib	140	10	72	500	<6	Mono-directional Filament Tapes
FT-720	PET + Fib	130	10	72	600	< 6	
FT-715	PET + Fib	160	10	72	700	< 6	
FT-830	PET + Fib	150	10	36	550	< 6	Cross Filament Tape
FT-850	PET + Fib	180	10	36	660	< 6	
FT-870	PET + Fib	180	10	36	700	< 6	
FT-930	PET + Fib	260	15	24	400	< 6	Double sided Filament Tapes
FT-950	PET + Fib	280	15	24	400	< 6	

We Provide OEM and ODM Service, Our product development capability ensure us to manufacturer the tapes according to your requirement.
